

Notice of Accreditation Actions

Fall 2018 - Revised After Reconsideration Hearing

Accrediting agencies recognized by the Council for Higher Education Accreditation are required to notify the public of accreditation decisions and the basis for such decisions. The Joint Review Committee on Educational Programs in Nuclear Medicine Technology (JRCNMT) meets this requirement by publishing a notice of accreditation actions on its website within 30 business days after each board meeting. The nuclear medicine technology community, regional and specialized accrediting agencies, and state agencies responsible for postsecondary education and radiation oversight are notified when a new notice of action is published.

At its meeting on November 2 - 3, 2018 the JRCNMT took the accreditation actions noted below, utilizing the 2011 version of the JRCNMT's accreditation standards. Specific standards identified in this report can be reviewed in the [JRCNMT Accreditation Standards for Nuclear Medicine Technologist Education](#).
