Amy Diaz, EdD
Interim President
GateWay Community College
108 N. 40th St.
Phoenix, AZ 85034

Delivered by email

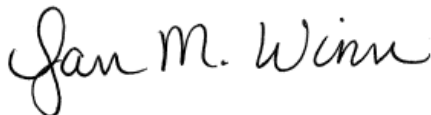

Dear Dr. Diaz:

The nuclear medicine technology program at GateWay Community College is scheduled for accreditation review in 2022. Earlier this year, the program director requested a one-year extension in the accreditation process due to changes underway to move the program's terminal award from an associate to a baccalaureate degree.

On October 22, 2021, the Joint Review Committee on Educational Programs in Nuclear Medicine Technology (JRCNMT) voted to extend the program's accreditation one year, moving the review for continued accreditation to 2023. The timing of the degree change process and the substantive change report documenting it, which must be submitted to the JRCNMT in 2022, make it prudent to delay the accreditation review.

Notification of this decision will be forwarded to the institution's accrediting agency. The information will also be made available to the public on the JRCNMT website. The JRCNMT extends best wishes for continued success in the operation and on-going improvement of this educational program.

Sincerely,

Jan M. Winn, MEd, RT(N), CNMT
Executive Director

October 26, 2016

Steven Gonzales, EdD
President
GateWay Community College
108 N. 40th Street
Phoenix, AZ 85034

Dear Dr. Gonzales:

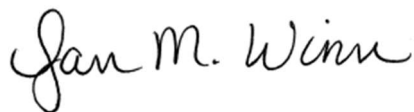

In 2015 the nuclear medicine technology program sponsored by GateWay Community College received continued accreditation for three years from the Joint Review Committee on Educational Programs in Nuclear Medicine Technology (JRCNMT). Extension of accreditation to the full term was contingent upon submission of a progress report satisfactorily addressing deficiencies in compliance with published accreditation standards.

Based on the information provided in the program's progress report, the JRCNMT voted on October 21, 2016 to extend accreditation four additional years. The next evaluation of the program for continued accreditation will occur in 2022. A mid-cycle report will be due on February 1, 2019.

Notification of this decision will be forwarded to the institution's accrediting agency. The information will also be made available to the public on the JRCNMT website.

The JRCNMT extends best wishes for continued success in the operation and on-going improvement of this educational program.

Sincerely,

Jan M. Winn, MEd, RT(N), CNMT
Executive Director
