Falecia Williams, EdD  
President  
Prince George's Community College  
301 Largo Rd / Kent Hall  
Largo, MD 20774

Dear Dr. Williams:

In 2021, the nuclear medicine technology program at Prince George's Community College underwent review for continued accreditation by the Joint Review Committee on Educational Programs in Nuclear Medicine Technology (JRCNMT). Analysis of the self-study and site visit demonstrated deficiencies in compliance with one or more accreditation standards, resulting in conditions being placed upon the program's accreditation in October 2021. Submission of a progress report this spring, demonstrating that the program had come into compliance with the noted standards, was necessary for conditions to be removed and accreditation extended.

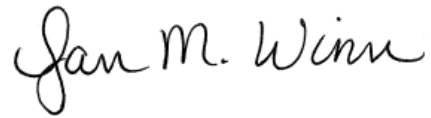

The *Accreditation Standards for Nuclear Medicine Technologist Education (2017 ed)* were utilized to evaluate the program's progress report. Based on the evidence in the report, the JRCNMT determined that the program is now in compliance with Standards C6h (Physician interactions) and D3.1j (Assessment of affiliate visits). The JRCNMT accepted the report on April 8, 2022 and voted to continue the program's accreditation for six (6) years, which is the maximum period of time for which the program is eligible. The program's next review for continued accreditation will occur in 2028. A mid-cycle report must be submitted in 2025.

The JRCNMT wishes to congratulate the program on improving the pass rates of its graduates on the national certification examinations. Over the past several years, significant effort was undertaken by the Program Director to make program improvements that would raise the graduate pass rate. The results of the improvements are evident.

Notification of this decision will be forwarded to the institution's accrediting agency and the information will be made available to the public on the JRCNMT website.

The JRCNMT extends best wishes for continued success in the operation and on-going improvement of this educational program.

Sincerely,

A handwritten signature in black ink that reads "Jan M. Winn". The signature is written in a cursive, flowing style.
