Gordon Crabtree, MBA
Chief Executive Officer
University of Utah Health
50 North Medical Dr / Rm W1200
Salt Lake City, UT 84132

Dear Mr. Crabtree:

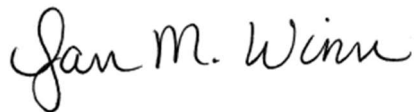

In 2017 the nuclear medicine technology program sponsored by University of Utah Hospital received continued accreditation for one year from the Joint Review Committee on Educational Programs in Nuclear Medicine Technology (JRCNMT). In 2018 accreditation was extended one additional year. Extension of accreditation to the full seven-year term was contingent upon submission of a progress report satisfactorily addressing deficiencies in compliance with published accreditation standards.

The progress report submitted by the program this year satisfactorily addressed the current status of the program with respect to its compliance with Standard D3.3 in the *Accreditation Standards for Nuclear Medicine Technologist Education (2018 ed)*. Accordingly, the JRCNMT accepted the report on April 26, 2019 and extended accreditation five additional years. The program's next review for continued accreditation will occur in 2024. A mid-cycle report will be due in 2021.

Notification of this decision will be forwarded to the institution's accrediting agency. The information will also be made available to the public on the JRCNMT website.

The JRCNMT extends best wishes for continued success in the operation and on-going improvement of this educational program.

Sincerely,

Jan M. Winn, MEd, RT(N), CNMT
Executive Director
