Gary Locke, JD
Interim President
Bellevue College
3000 Landerholm Circle SE
Bellevue, WA 98007

Dear President Locke:

Earlier this year, the nuclear medicine technology program at Bellevue College completed the self-study and site visit process for continued accreditation by the Joint Review Committee on Educational Programs in Nuclear Medicine Technology (JRCNMT). Last week, JRCNMT Directors reviewed the evaluation of the program's self-study and the Letter of Site Visit Findings and determined that the program is in compliance with the *Accreditation Standards for Nuclear Medicine Technologist Education*. Accordingly, the JRCNMT voted to continue the program's accreditation for seven years, the maximum period possible.

A mid-cycle report will be requested in 2026 and the program's next review for continued accreditation is scheduled to occur in 2029.

This accreditation decision is based on the condition that there shall be no more than 14 students in the clinical phase of the program at any time. The total capacity and individual affiliate capacities noted below were determined utilizing the clinical affiliate data provided in the program's self-study. The following institutions are recognized as affiliates of this program:
