Milwaukee, WI, 53226

Distributed by email

Dear Mr. Klauck:

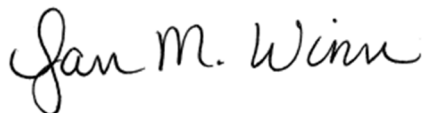

In 2021, the nuclear medicine technology program at Froedtert Hospital underwent review for continued accreditation by the Joint Review Committee on Educational Programs in Nuclear Medicine Technology (JRCNMT). Due to deficiencies in compliance with one or more accreditation standards, the program had conditions placed upon its accreditation in October 2021. Removal of the conditions and continued accreditation required submission of a progress report this fall that demonstrated that the program was now in compliance with the noted standard.

The progress report submitted by the program satisfactorily demonstrated compliance with Standard D3.3 (Advisory Committee) in the *Accreditation Standards for Nuclear Medicine Technologist Education (2022 ed)*. Accordingly, the JRCNMT accepted the progress report on November 4, 2022 and approved continued accreditation for six (6) years. A mid-cycle report will be requested in 2025 and the program's next review for continued accreditation is scheduled to occur in 2028.

This accreditation action will be made available to the public on the JRCNMT website.

The JRCNMT extends best wishes for continued success in the operation and on-going improvement of this educational program.

Sincerely,

Jan M. Winn, MEd, RT(N), CNMT  
Executive Director

cc: Ann Voslar, MHA/Ed, RT(N), CNMT  
Program Director

Kyle Theine, MBA, RT(R)(MR)  
Manager of Imaging Services, Radiology School
