## **CL-C: Affiliate Staff**

Standards B3, B4.2b & C6

Complete the following table for the nuclear medicine and/or radiopharmacy staff at this affiliate. List the Affiliate Education Supervisor (AES) first, followed by all other technical personnel involved in the clinical instruction of the students. No additional proof of board certification is needed to accompany this page.

Name	% Time in NM	Primary Function in Nuclear Medicine	Certification	
			Credential(s)	Year(s) Earned

1. Of the staff listed above, how many certified technologists and/or licensed radiopharmacists are typically working during the time period/shift that students are assigned to this affiliate?

2. If this clinical affiliate has additional rotation areas and the technologists listed above rotate between the primary affiliate and these areas, indicate the typical number of technologists staffing each area (e.g. 12 are listed above with 6 at the primary facility, 3 at the PET clinic and 3 at the outpatient clinic.)
