Richard H. Hart, MD, DrPH
Loma Linda University
11060 Anderson Street
Loma Linda, CA 92350

Dear Dr. Hart:

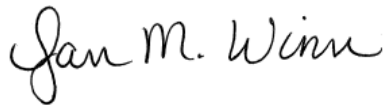

In 2021, the nuclear medicine technology program at Loma Linda University was placed on probation for one year by the Joint Review Committee on Educational Programs in Nuclear Medicine Technology (JRCNMT) because the self-study and site visit review for continued accreditation indicated that the program was not in compliance with several accreditation standards, as enumerated in previous letters. After submission of two progress reports, issues remained so probation was extended an additional six months in November 2022.

Removal of probation and extension of accreditation to the full term was contingent upon submission of a satisfactory progress report and completion of a focused site evaluation that indicated that the cited deficiencies had been satisfactorily addressed.

Based on the information provided in the program's three progress reports and the evidence evaluated during the focused evaluation last November, the JRCNMT voted on April 14, 2023 to remove the program from probation and extend accreditation five years. The next evaluation of the program for continued accreditation will occur in 2028. A mid-cycle report will be requested in 2025.

Notification of this decision will be forwarded to the institution's accrediting agency. The information will also be made available to the public on the JRCNMT website. The JRCNMT extends best wishes for continued success in the operation and on-going improvement of this educational program.

Sincerely,

Jan M. Winn, MEd, RT(N), CNMT
Executive Director

cc: Raynold Ho, MBA, RT(N), CNMT
Nuclear Medicine Program Director

Laura L. Alipoon, EdD, RT(R)
