

Notice of Accreditation Actions

Spring 2023

Accrediting agencies recognized by the Council for Higher Education Accreditation (CHEA) must notify the public of accreditation decisions and the basis for such decisions. The nuclear medicine technology community, institutional and specialized accrediting agencies, and state agencies responsible for postsecondary education and radiation oversight are notified when a new notice of action is published.

The Joint Review Committee on Educational Programs in Nuclear Medicine Technology (JRCNMT) meets this requirement by publishing a notice of accreditation actions on its website within 30 business days after each board meeting. Additional detail on board actions is found in the specific program's accreditation letter, posted in the [Directory of Accredited Programs](#) on the JRCNMT's website.

At its regular meeting on April 14-15, 2023, the JRCNMT took the following actions regarding the nuclear medicine technology programs sponsored by the institutions listed below.
