Dear Dr. Atwater:

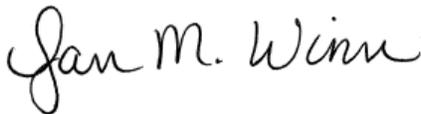

In 2022 the nuclear medicine technology program at Hillsborough Community College was placed on probation for one year by the Joint Review Committee on Educational Programs in Nuclear Medicine Technology (JRCNMT). Removal of probation and extension of accreditation to the full term was contingent upon submission of two progress reports and completion of a focused on-site evaluation in 2023, all of which demonstrated that the identified deficiencies in compliance with published accreditation standards had been satisfactorily addressed.

Based on the information provided in the program's progress reports and the focused evaluation report, the JRCNMT voted on October 13, 2023 to remove the program from probation and extend accreditation six years. The next evaluation of the program for continued accreditation will occur in 2029. A mid-cycle report will be requested in 2026.

Notification of this decision will be forwarded to the institution's accrediting agency. The information will also be made available to the public on the JRCNMT website.

The JRCNMT extends best wishes for continued success in the operation and on-going improvement of this educational program.

Sincerely,

Jan M. Winn, MEd, RT(N), CNMT
Executive Director
