Dear Dr. Keating:

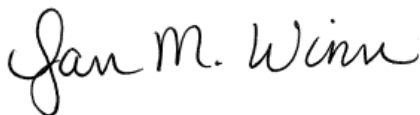

In 2022, the nuclear medicine technology program at Rowan College of South Jersey Gloucester underwent review for continued accreditation by the Joint Review Committee on Educational Programs in Nuclear Medicine Technology (JRCNMT). Due to deficiencies in compliance with Standard E3.3, the program had conditions placed upon its accreditation in November 2022. Submission of a progress report in August 2023 that documented compliance with the identified standard was necessary for conditions to be lifted and accreditation continued.

The progress report submitted satisfactorily addressed the current status of the program's compliance with Standard E3.3 in the *Accreditation Standards for Nuclear Medicine Technologist Education (2017 ed)*. Accordingly, the JRCNMT accepted the progress report on October 13, 2023 and approved continued accreditation for five (5) years. The program's next review for continued accreditation will occur in 2028. A mid-cycle report will be requested in 2025.

Notification of this decision will be forwarded to the institution's accrediting agency and the information will be made available to the public on the JRCNMT website.

The JRCNMT extends best wishes for continued success in the operation and on-going improvement of this educational program.

Sincerely,

Jan M. Winn, MEd, RT(N), CNMT
Executive Director
